

## HOW TO REGISTER ACTIVEX CONTROLS “BSAC”

### BSAC - Bluesofts ActiveX Controls

To get license BSAC please do it with step by step

**1. Get “Machine Code” from “About & Registration” dialog**

- When you run userform that embed any controls from BSAC it will show “About” once at the first time.
- You can open dialog from VBE->Userform: click on controls (any controls in BSAC), in Properties Window, Click on About [...]

- Dialog “About & Registration”

- Click on “Copy” button to copy machine code to clipboard so you can paste to mail

**2. Send "Machine Code" to BLUESOFTS., JSC and active license from us**

- Send "machine code" to email: [sales@bluesofts.net](mailto:sales@bluesofts.net)
- Please tell me, how many license you want to buy it?
- We will send license file (\*.lic) to you after get machine from you.
- In your dialog "About & Registration" click on "Get the license file (\*.lic)", select file license for this machine.
- After successful activation you don't see dialog "About"
- [We send you sample files for programming with BSAC for user registered.](#)

**3. BSAC Sales Policy**

- License BSAC for per machine that run application with controls in BSAC.
- If you have one machine then buy one license, two machine then buy two licenses,...
- Your application deploy to other machine, if that haven't active license it will show dialog "About" once only, all controls with features is full (run fine).
